Advancing Treatment for Kidney Disease: SGLT2i & 2023 International Guidelines for CKD Management

William G. Herrington

Medical Research Council-Population Health Research Unit at the University of Oxford

The presentation will include 3 parts:

Part 1: EMPA-KIDNEY results will be presented, including new exploratory eGFR slope-based analyses by type of diabetes (including type 1 diabetes), level of albuminuria and at low eGFR. Summary results of the bioimpedance substudy will also be included.

Part 2: Collaborative meta-analysis of large SGLT-2 inhibitor trials assessing kidney outcomes by diabetes status.

Part 3: 2023 European Society of Cardiology & K/DIGO Clinical Practice Guidelines relevant to SGLT2 inhibitors will be presented.
