Department of Physiology, National Cheng Kung University

國立成功大學 生理學科研究所

In scientific research, the ability to disseminate findings in high-profile journals is crucial for gaining recognition and advancing the academic career. This talk, presented by Professor Wei-Li Wu from the Department of Physiology at National Cheng Kung University, aims to provide researchers with invaluable insights into the process of publishing manuscripts in esteemed journals. The presentation will cover essential strategies, from crafting a compelling manuscript and selecting the right journal to understanding the peer-review process.
